Our History

1993

Production of sodium silicate.

2005

Production of silica gel.

2007

Exportation of silica gel.

2011

Obtention of ISO9001 and ISO14001.

2013

Production of cat litter. Obtention of REACH.

2015

Obtention of BSCI.

2016

Export in more than 70 countries.

2017

Creation of SINCEM EUROPE.

2020

Creation of SINCERE Pet Products.

Our Values

Natural Product

Silica gel is taken from natural quartz sand, mineral components are non toxic and harmless. It is the only product that has passed the FDA certification to be used in medicine by our USA customers.

Quality Control

SINCHEM owns all the processes of production from the mines to the finished products with total control over quality. We have ISO 9001, ISO 14001 and REACH certificates.

Sustainable Development

SINCHEM prides itself with environment protection, green and sustainable development, and transmits this concept to employees through action. SINCHEM builds roads, supports education and makes efforts for social progress and contributing to the sustainable development of mankind.

Green Concept

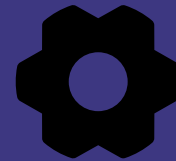

SINCHEM has always adhered to the green concept of «taking from nature and returning to nature.» The used silica gel can be utilized as fertilizer.

Reduce Waste & Save Energy

SINCHEM has increased the production efficiency to reduce waste and save energy : steam is produced by a low temperature recovery unit, which greatly reduces the amount of Carbon Dioxide and we use natural gas not coal.

SINCHEM has invested EUR 13 million in a water treatment center which achieved zero discharge of water by using spatial technology.

No Heavy Metals

Silica gel does not contain heavy metals, like some other mineral litters.

Our Product Range

CAT LITTERS

Silica Gel Cat Litters

Vegetal Cat Litters

SILICA GEL INDUSTRY

Silica Gel Dessicants

Silica Gel for Industrial Use

Micronized Silica

Sodium Silicate

Product Range

Cat Litters

Silica Gel Cat Litter

TYPES

Lumpy, Sugar & Sugar Clumping, Semi bead

OPTIONS

Fragrances, Antibacterial Agent, Health Indicator

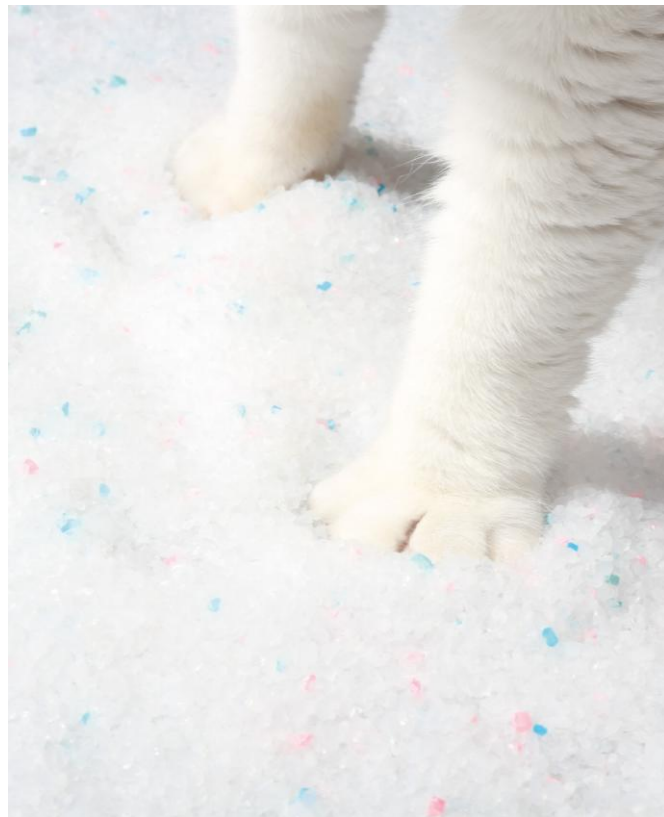

KEY FEATURES

Absorbs Urine, Odor Control

MAIN MARKET

Europe

OUR CUSTOMERS

MIGROS

Vegetal Cat Litter

TYPES

Tofu, Cassava

OPTIONS

Fragrances, Health Indicator

KEY FEATURES

Absorbs Urine, Odor Control, All Natural,
No Dust & Flushable in the Toilet

MAIN MARKET

Asia

Product Range

Silica Gel Industry

Application Fields

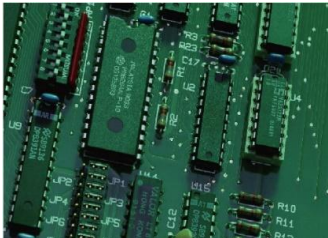

Industry

Biochemistry

Electronic

Agriculture

Houseware

We have entrusted the company E-CAL with all our industrial and household products, such as pest control agents, insecticides, anti-formaldehyde products, fungicides, and fertilizers.

Dessicants

TYPES

Type A, Type B, Indicating Silica Gel

MAIN MARKET

Asia, America

KEY FEATURES

Dessicants, Catalyst Carrier, Absorbent

OUR CUSTOMERS

Silica Gel For Industrial Use

TYPES

PSA Silica (Pressure Swing Absorption),
FNG Silica (Water-proof)

MAIN MARKET

Asia, America

KEY FEATURES

Steel industry, Synthetic Ammonia
Industry

Micronized Silica Gel

TYPES

Anti blocking Agent, Matting Agent

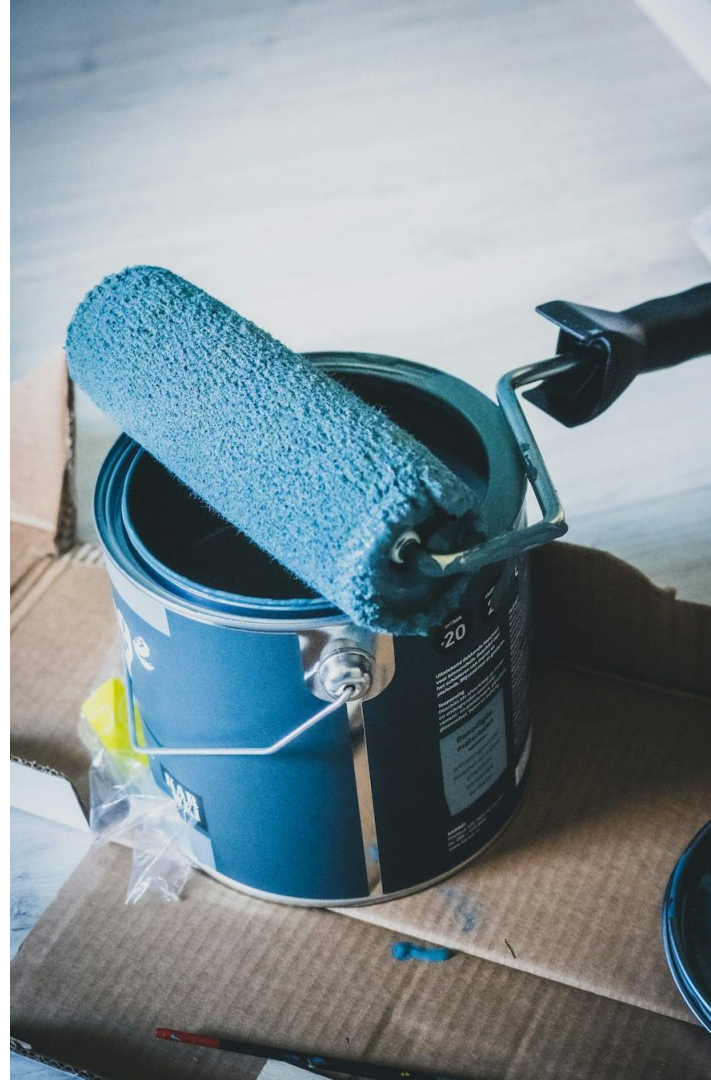

MAIN MARKET

Asia

KEY FEATURES

Painting, Ink, Plastics

Sodium Silicate

TYPES

Solid, Liquid

MAIN MARKET

Asia

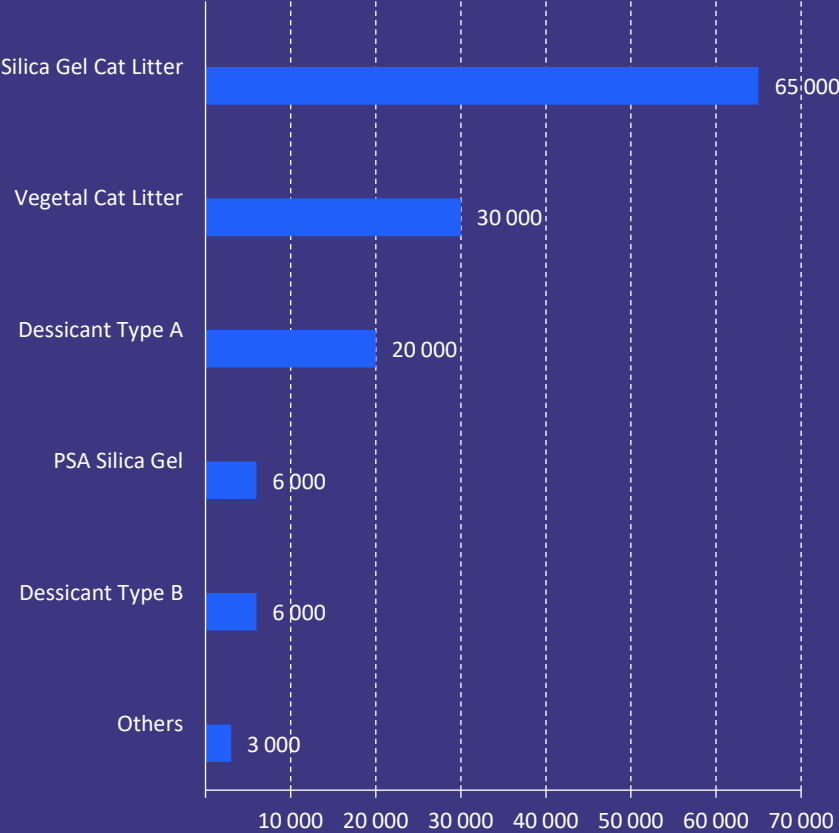

KEY FEATURES

Raw Material for Silica Gel, Adhesive, Fire Resisting Material.
